Temporary Down Pipe

“Keep your site dry, safe and clean”

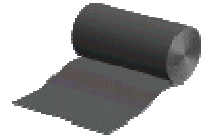

- Use Temporary Down Pipe to comply with Council requirements that gutters discharge to approved points during construction.
- Use Temporary Down Pipe with duct tape to secure to gutter nozzle for a fast and cost effective solution.
- Alternatively, fix Temporary Down Pipe to a short piece of 90mm storm water pipe and connect this to your gutter drop.
- Use Temporary Down Pipe to effectively keep your work site from turning into a quagmire! No muddy boots, slippery scaffolding or sediment flow to the street.
- Use Temporary Down Pipe to avoid council fines!
- Temporary Down Pipe is made from black foodgrade polyethylene which has superior UV qualities.

PRODUCT DESCRIPTION

Temporary Down Pipe 25m Roll

PRODUCT CODE

SWDPTEMP25

Installation of our Temporary Down Pipe is easy and practical.

= **Happy Builder!**
