The Ultimate in Bathroom Indulgence Bounty Grates

Bounty floor grates are manufactured in Australia using the latest computer controlled casting processes. Part of the process involves massaging the parts in fine ceramic medium to smooth and polish the product. If your project is deserving of the ultimate finishing touch, then remember - Bounty Brass is better.

Classic Bounty Range

Ripple - Suggestive of water sparkling in the bright sun as a sailing boat glides past

Federation - Classic proportions lend structure where a more formal feel is called for.

Starfish - Reminiscent of a barefoot stroll on a windswept beach, after a storm, searching for treasure...

Plait - Inspired by rope coiled on the deck of an old schooner, capturing the warmth of fine timber, varnish and brassware.

The Classic Bounty Range is available in a variety of finishes including Satin Chrome, Chrome, Polished Brass and Gold Plate. Sizes include 80mm, 100mm and 80mm x 50mm in both round and square body types.

Round Bermuda

Bermuda Bounty Range

Bermuda - named after the famous Bermuda Triangle... the water just disappears without a trace.

The Bermuda range includes the Square Bermuda for 80mm and 100mm pipes and the Round Bermuda for 100mm pipes. The Square Bermuda measures 115mm square and accommodates a 96mm square tile insert. The Round Bermuda has a XXX outside diameter and accommodates a YYY diameter round tile insert.
